

## International Academy of Perinatal Medicine

### IAPM SCIENTIFIC PROGRAM

Date: 2 March 2023 (Thursday)

Time: 16:00-19:00

Venue: Al Aqool Hall, Grand Hyatt Hotel, Doha

#### Session I. PERINATAL WORLD AND CORONA-19 PANDEMIC

<b>Chair persons: Asim Kurjak, Badreldeen Ahmed</b>		
Opening lectures		
15:50-16:00	Badreldeen Ahmed	Welcoming all members to Qatar Play 5 min video of Doha-Qatar
16:00-16:25	Asim Kurjak	Is COVID-19 pandemic the end of happy globalization
16:25-16:50	Olus Api	Obstetrical and neonatal issues of the pandemic COVID-19 – opening lecture
16:50-17:05	Frank Chervenak	COVID-19 Pandemic - Plato Warns of the Limitations of Tele-Education
17:05-17:20	Ola Saugstad	How to reduce neonatal mortality to reach Sustainable Development Goals (SDG)
17:20-17:40	Coffee break	
17:40-17:55	Narendra Malhotra	Pregnancies and deliveries during COVID-19 pandemic in India
17:55-18:10	Esin Koc	Lessons learned from the COVID-19 pandemic
18:10-18:25	Pramod Jog	COVID-19 pandemic: perinatal and neonatal aspects
18:25-18:40	Florin Stamatian	The role of the placenta in protecting the fetus from COVID 19 infection
18:40-18:55	Discussion	

Date: 3 March 2023 (Friday)  
Time: 09:00-20:15  
Venue: Al Aqool Hall, Grand Hyatt Hotel, Doha

**Session II. ADVANCES IN PERINATAL MEDICINE AND INFERTILITY**

<b>Infertility and perinatal outcome</b>		
<b>Chair persons: Narendra Malhotra, Sonal Panchal</b>		
09:00-09:15	Narendra Malhotra	ART pregnancies: are they different?
09:15-09:30	Sonal Panchal	Ovarian stimulation follow-up by ultrasound
09:30-09:45	Joseph G. Schenker	Surrogacy - Medical, Ethical, Legal and Religious Aspects
09:45-10:00	Apostolos Athanasiadis	Multiple pregnancy and infertility
10:00-10:15	Alexandra Matias	Why are monozygotic twins different?
<b>Perinatal medicine</b>		
<b>Chair persons: Ana Bianchi, Aliyu Labaran Dayyabu</b>		
10:15-10:30	Aris Antsaklis	Why are we so unsuccessful in fulfilling millennium meeting recommendation – is education proper role of our Academy?
10:30-10:45	Aliyu Labaran Dayyabu	Millennium Development Goals/Sustainable Development Goals Achievable or a mirage: an insight from Sub-Saharan Africa
10:45-11:00	Coffee break	
11:00-11:15	Ana Bianchi	Preterm birth in low- and middle-income countries
11:15-11:30	Thorsten Braun	Fetal microbiome
11:30-11:45	Chiara Benedetto (pre-recorded video)	Empowerment as a tool to improve the health of mothers-to-be
11:45-12:00	Eberhard Merz	The role of ultrasound in first trimester screening after introduction of NIPT as a service of the public health insurances in Germany.
12:00-12:15	Giovanni Monni	Criticisms and advantages of cell-free fetal DNA prenatal test for aneuploidies
12:15-12:30	Vedran Stefanović	Use of non-invasive prenatal testing (NIPT) for prediction of adverse pregnancy outcome
12:30-12:45	Ritsuko Pooh (pre-recorded video)	Recent advances on Fetal Neurosonography
12:45-13:00	Sonila Pashaj	Why is 3D ultrasound assessment of the fetal brain circulation important?
13:00-14:00	Lunch	
<b>Ultrasound</b>		
<b>Chair persons: Aida Salihagic Kadic, Ivica Zalud</b>		
14:00-14:15	Panos Antsaklis	KANET: the era of assessing the fetus neurologically in utero has started
14:15-14:30	Aida Salihagic Kadic	Fetal cognitive function and 3D/4D ultrasound

14:30-14:45	Nicola Volpe (prerecorded video)	First trimester assessment of brain and face by ultrasound
14:45-15:00	Alaa Ebrashi	Mid sagittal plane at 13 weeks scan: all for one and one for all
15:00-15:15	Gwang Jun Kim	Embryonic heart characteristics
15:15-15:30	Themistoklis Dagklis	Advances in sonographic assessment of the placenta
15:30-15:45	Ivica Zalud	3D Doppler and placenta
15:45-16:00	Pranav P. Pandya	Screening for fetal anomalies at 18 to 20 weeks: a national program
16:00-16:15	Hung N. Winn	The impact of maternal nutrition on fetal growth
16:15-16:30	Coffee break	
<b>Perinatal and neonatal medicine</b>		
<b>Chair persons: Abdallah Adra, Liliana Kornhauser Cerar</b>		
16:30-16:45	Attah Raphael Avidime	An unusual route of delivery through a central rupture of the perineum a typical phenomenon of unsupervised delivery in sub-Saharan Africa: a report of two cases
16:45-17:00	Irina Ignatko	Why are monozygotic twins different?
17:00-17:15	Przemysław Kosiński	Congenital diaphragmatic hernia: from diagnosis to therapy
17:15-17:30	Bernat Serra	A new model for screening for early onset preeclampsia
17:30-17:45	Josip Juras (prerecorded video)	Liver rupture in pregnancies with hypertensive disorders
17:45-18:00	Abdallah Adra	Aspirin use during pregnancy: evidence-based or en vogue?
18:00-18:15	Ratko Matijević	Vaccination during pregnancy
18:15-18:30	Abdulfetah Abdulkadir	Management of Rh alloimmunization at St. Paul Hospital Millennium Medical College, Addis Ababa, Ethiopia
18:30-18:45	Gordana Adamova	Maternal mortality in North Macedonia
18:45-19:00	Orion Gliozheni	Postpartum hemorrhage: tools for prediction and early intervention
19:00-19:15	Liliana Kornhauser Cerar	Managing high-risk infants: coexistence with RSV in COVID-19 epidemics (Slovene experience)
19:15-19:30	Manuel Sanchez Luna	New approach to bronchopulmonary dysplasia (BPD): how to protect immature lung
19:30-19:45	Fatima Usman (prerecorded video)	Neonatal emergency preparedness in Kano, Nigeria
19:45-20:00	Nikolaos Papantoniou	Therapeutic laser use in obstetrics
20:00-20:15	Discussion
